Automation  
*Come With Logical Innovation*

# Logical Innovation For Industry Automation

The aspiration for a better tomorrow is the elixir that drives us forward to the oblivion future, but a future without a proper plan is futile. **Logix Time Automation is the company that connects the thread between present and future through the power of Technology.** We do not incline only to hope, but it is the hard work that designs our destiny.

Technology is upgrading itself day by day. We are standing at the turning point where its up-gradation speed is boasting to a next level. This is the 4th industrial revolution. Industry will be changed in a new look after this phase. You have to be a part of this revolution otherwise you lack behind. With us you will be a part of this revolution. Two hot topics throughout the automation industry

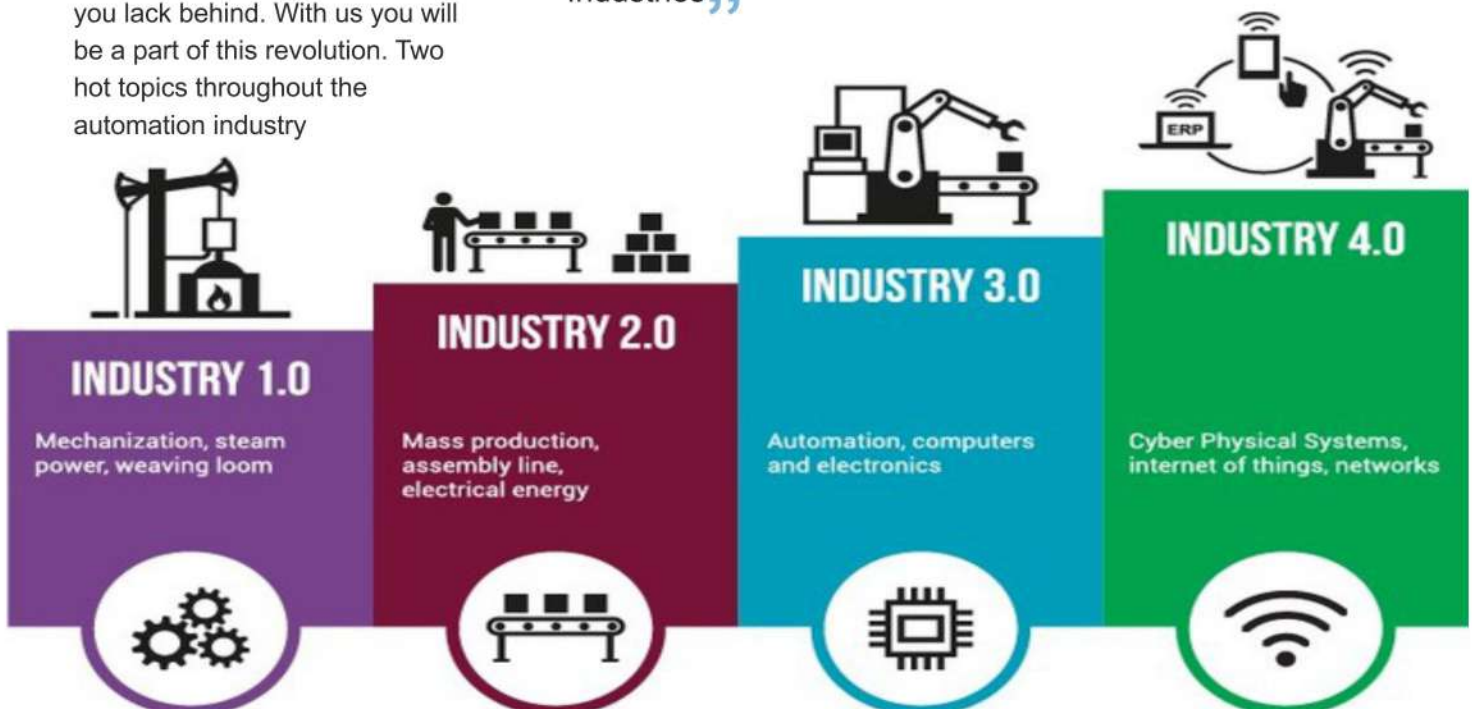

today are the **Internet of Things (IoT) and Industry 4.0.** Their goal is to interconnect not just machines and parts of machines, but entire production lines, plants and locations as well. Server systems can be deployed to support this at the local level, but connecting locations spread around the globe inevitably involves using the Internet.

**Logix Time Automation** will offer right from factory design, process design to selecting automation products, carrying out design of intelligent material handling

systems synchronized with the process and assembly flow, coordinating/ procuring/ integrating the entire automation solution, proving out the expected operating efficiencies in terms of OEE, productivity, quality, inventory, line balancing, supply chain & logistics synchronization etc. **Logix Time Automation** also is a pioneer in the sphere of electrical engineering with its fabrication of a various divisions of exclusive panels made under the supervision of skilled engineers.

Growth takes place through individuality and renovation, we, as an organization believe in the fusion of honesty, morality in every aspect of our business ethics. Our mission is to aspire to form a long-term bond with our customers through our service and the quality of our products that are one of a kind.

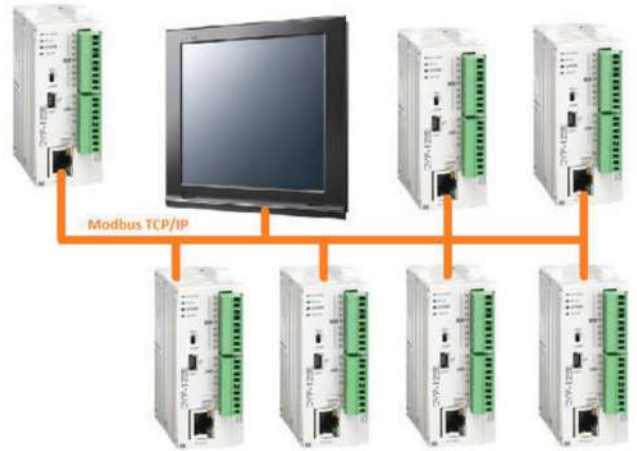

“ Automation is the new Avengers of Manufacturing industries in the present and AI through data collection is the future of Industries”

# Automation Solution

With our vision of “Making industry automatized”, we pursue in providing Industrial Automation solutions using Drives, PLC, DCS, SCADA and Data reporting software’s to ensure one point facility to many applications.

“smarter than you think and easier than you do”

- PLC BASED AUTOMATION PANEL
- SCADA BASED INDUSTRIAL SOLUTION
- INTEGRATED FACTORY AUTOMATION
- ROBOTIC AUTOMATION SOLUTION
- DEVELOPE SMART FACTORY
- DATA REPORTING SOLUTION
- VFD PANEL

# Low Voltage Panel

In our company, we provide the customers with a universal range of MCC panels that gives solution to the needs of a large number of industries. These panels are fabricated for the distribution of power, main incoming and motor control panels. The building of these panels are made with accommodating features. Such panels, which are impeccably made are available with draw out and non-draw out design. Cubic panels can be manufactured in accord to the client’s specification. The panels of our company abide by international parameters and offer complete customer satisfaction.

- MCC PANEL
- PCC PANEL
- LDB PANEL
- JUNCTION BOX
- SOFT STARTER PANEL
- APFC PANEL
- FIRE FIGHTING PANEL
- AMF PANEL
- PDB PANEL
- SYNCRONIZING PANEL
- RCP PANEL
- CONTROL DESK
- DG PANEL
- TESTING & ANNUNCIATION PANEL

# Machine Tools Product

Superior manufacturing is the key to Perfect Tools quality. We use only the best swithcgears and controller that your tool steel and long-wearing micro-grain carbide in your tools, and our sharpening technologies are second to none. Our router bits are precision ground on state-of-the-art panel equipment, with build-in-programme and touch screen facility for smooth, maintenance-free performance. Our control panel also feature an anti-kickback design that limits the depth of cut and makes them safer to use in your precious machine.

 AUTOMATED FLY ASH BRICKS MACHINE CONTROL PANEL

 PLC BASED PET BOLTTLTLE MACHINE CONTROL PANEL

 CONCRETE MIXING CONTROL PANEL

 LIFT & ELEVATOR CONTROL PANEL

## WHY US ?

- ✔ Skilful engineers & developers.
- ✔ Helpful customer support.
- ✔ Guarantee after sales support.
- ✔ Unmatched Manufacturing Quality.
- ✔ Timely Delivery.
- ✔ Qualified and Skilled Wire Man Team.
- ✔ Safety Combined With Durability.
- ✔ Customised Design.
- ✔ Quality Control as per International Standard.
- ✔ With 12 Month Warranty

“**FREE TECHNICAL SUPPORT AFTER WARRANTY PERIOD OVER,**”

**WE ARE READY TO PROVIDE ANY KIND OF SERVICE FOR YOU.**

- ✔ System Data Collection.
- ✔ Manual to Automation Up-gradation
- ✔ VFD Selection & Commissioning.
- ✔ Power & Energy Calculation
- ✔ PLC,HMI & SCADA Programming.
- ✔ Engineering Design.
- ✔ Change Switch gear and other Component.
- ✔ Existing Circuit Modification & retrofitting.
